ONE cannot much blame the metal workers for agreeing to strike just now. It must be infinitely cooler doing nothing than working in an iron foundry, this hot weather.

ACCORDING to the statements published by the Mexican government Mexico has in the last nine years doubled its revenues, its exports and the number of its factories, while during the same time it has multiplied by three its banking capital.

THE case of Mack Stewart, the ex-Confederate soldier, who is in prison in Mexico for killing a policeman, has been brought up again, by the passage of a concurrent resolution by the Texas legislature asking President Diaz and Gov. Ahumada of the state of Chihuahua to grant Stewart a pardon.

OFFICERS of the army and navy must learn to control their tongues, and pens also. They may think whatever they will, but cannot, as a rule, indulge in the privilege of free speech which every other American enjoys. No doubt Admiral Evans honestly thinks he is correct in his opinion of the course of Hon. Wm. E. Chandler, whom he criticises in his book "A Sailor's Log," but he seems to have transgressed in expressing himself so freely. At any rate, he has been publicly reprimanded by the Navy department for doing so. It seems hard that a brave commander, who fought so nobly in the Santiago engagement as to win universal praise, should be subjected to such public humiliation, but Admiral Evans' misfortune seems to be that he has written a book, and could not keep his true opinion out of it. However, the free advertising which the incident has given his book may be some recompense to him. "A Sailor's Log" will be in demand now, by people whose curiosity is aroused as to what the admiral said about Mr. Chandler.

## The Yellow Peril In Mexico.

The steamer Alamo brought 200 Chinese immigrants to Guaymas. The local authorities are endeavoring to awaken the Federal Government to the detriment that will arise from this class of immigrants with a view of having Congress pass some measure forbidding them to land. It is reported that there will be fully 10,000 Chinese landed at Guaymas before the first of next year.—Mexican Herald

Winters says he did the job alone. \$130,000 worth of the bullion was recovered at once.

The yakamik, a species of crane, is said to be one of the most intelligent birds known. The bird is used by the natives of Venezuela, South America, in the place of shepherd dogs, for guarding and herding their flocks of sheep. It is said that however far the yakamik may wander with the flocks, it never fails to find its way home at night, driving before it all the creatures entrusted to its care.
